

CUBEWATCH

Harness the power of social media

From plain text to useful market data.

The emergence of social media and online content over the last ten years has been dramatic. The importance and use of such data is only just being understood. CubeWatch provides insights into market activity, trends and sentiment scores from online content.

Features of CubeWatch

- Get all the latest market and sentiment data from Twitter, news organisations and online blogs
- Enter custom scoring criteria and source weighting preferences to further customise your data
- Receive all the latest live data via powerful Power BI visualisations

Trading Insights

- Anticipate risk events and proactively prevent the impact of future credit risk events on the portfolio.
- More timely trading. Reducing the risks inherent in open positions by receiving up-to-date market information
- Maximum impact. To ensure more timely profit making or loss avoiding decisions have maximum impact.

Technology Story

- Built on top of Microsoft's Business Intelligence platform;
- Advanced Cube database technology platform using Microsoft's SQL Server;
- Highly integrated with Excel for front end analysis directly on the Credit Cube;
- Sophisticated integration technology, ETRM agnostic;
- Microsoft Azure Compliant for Cloud-Based Deployment or on-premises.
