

RISK MANAGEMENT AND AUTOMATION FOR CREDIT INSURERS

Enhance Credit Evaluation, Automate Underwriting, and Streamline Risk Assessment with real-time SaaS technology

AUTOMATE AND STREAMLINE YOUR UNDERWRITING AND ONBOARDING PROCESS

Provide clients service quickly by cutting your underwriting evaluation time in half. Use Client and Risk centric methods to evaluate each client individually and take on the risk that makes sense for your business.

INCREASE CREDIT SCORING ACCURACY

The CubeLogic platform provides enhanced credit scoring and pricing capabilities of trade credit and surety insurers. Using several different methods of evaluation means that scoring is more precise, ensuring less exposure.

INCREASE STAFF CAPACITY

Automated processes contribute to lower distribution costs and frees up valuable staff time for other business tasks, lowering administrative needs.

IN-DEPTH CREDIT AND MARKET RISK EXPOSURE INFORMATION:

Leverage real-time updated data from multiple sources to develop innovative risk assessment models. Our approach streamlines decision-making processes, enabling more accurate and informed risk evaluations.
